Play value

Little ones and big ones can go on a journey with our little Jet Plane. The childish explorers can fly merrily through the clouds, especially when someone sits or stands on the wings and provides a strong wind. The pilot sits in the cockpit and holds the course. You don't fall down even in a heavy storm because you can hold on tight everywhere. The Jet Plane encourages many movement activities and role-playing games.

Fundamental characteristics

- Unique and original
- Three-point suspension evokes the illusion of being on a sailing boat
- Incentive for playing: role-playing games
- Movement: moving one's centre of gravity, rocking (side to side), swinging

Recommended for

- Kindergarten children
- School children
- Supervised play areas, such as kindergartens, schools, after-school programmes or similar
- Public play areas without supervision, such as playgrounds, parks or similar

Scale 1:100

Safety check according to DIN EN 1176

Components

- 1 Jet Plane
- 3 Stand posts of robinia

Installation information

Surfacing requirements corresponding to a fall height of ≤ 1.00 m (please refer to price list for more detailed information)

Foundations
3 items 80 x 80 x 80 cm
Excavation depth 100 cm

Attention:
Exact measurements may vary;
for all installation dimensions refer
to current assembly instructions.
Technical changes reserved.

Technical information

Equipment made of non-impregnated mountain larch / robinia

Peeled white

Palisades peeled white means that bark, cambium and sapwood are removed, the natural shape of the trunk is preserved and can be experienced

Bevel cut

Vertical stand posts with bevelled end grain section as constructive wood preservation measure

Core-free

Sawn-timbers core-free, thus decreasing occurrences of cracking and undesired changes in shape

Tongue and groove

Tongue and groove planks made of 4 cm solid wood, highly resilient, no trickling of dust / sand, protection against direct rain

Universal joint

Drop-forged, hot-dip galvanised universal joint, consists of two sintered bushes, for free swinging in any direction

Profiled washer

Profiled washer for covering protruding screw heads according to standard, improved pressure distribution and protection against water. Impedes loosening the bolt

Adjustable

Adjustable two-piece bolt connection, easy to maintain, no projecting threads

Sintered bush

For all reciprocating movements we use sintered plain bearings which are self-lubricating in use and can easily be exchanged if necessary

Chains

Chains made of hot-dip galvanized steel (1.4301 / 1.4571 at extra charge) welded before galvanising, short-linked, without eyelets on the connecting parts, easy to exchange and shorten

For more detailed explanation of the quality characteristics see price list.

Fittings hot-dip galvanised

Dimensions

(small deviations possible)

Length	3.05 m
Width	2.20 m
Seat height	0.85 m
Weight	300 kg
