

Play value

The small village of timber houses provides a friendly atmosphere in the play area. The different play levels with their basic furnishings like a table and benches stimulate house and cave games while the wide platform is a meeting point for neighbourhood contacts. The steps are good for sitting and talking. Naturally the active children use the village for running about, chasing and climbing.

Foundations

Timber Houses

12 items 50 x 50 x 40 cm
Excavation depth 60 cm

Stairs

1 item 70 x 30 x 20 cm
Excavation depth 40 cm

Table

1 item 40 x 40 x 40 cm
Excavation depth 60 cm

Attention:

Exact measurements may vary; for all installation dimensions refer to current assembly instructions.

Technical changes reserved.

Technical information

Equipment made of non-impregnated mountain larch

Core-free

Sawn-timbers core-free, thus decreasing occurrences of cracking and undesired changes in shape

Claddings

Claddings made of mountain larch (4 – 5 cm). Peeled white by hand, natural tree surface remains tangible and perceptible

Ground anchor

All parts used for anchoring to the ground are made of hot-dip galvanised steel or stainless steel

For more detailed explanation of the quality characteristics see price list.

Steps of stairs made of hardwood, 32 mm
