

Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground.....

Date of installation

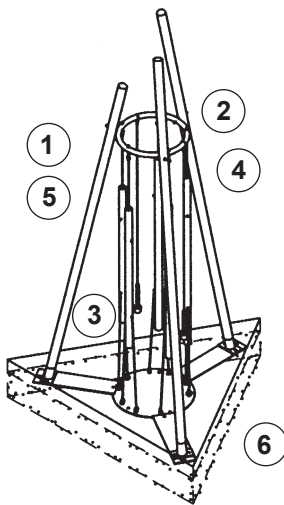

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on

- the location
- the usage
- the frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds".

Tubular Chimes
Order No. 10.52400

Stainless steel

1. Clean with stainless steel spray (www.kim-tec.de) using a clean cloth

Sound tubes

2. Check that ring and tension cables are properly connected and retighten bolts if necessary.

Beaters

3. Check for wear and tear, replace if necessary.
4. Check that the beaters are properly connected.
5. If necessary, disentangle suspension cables; if a beater is missing (vandalism) install a replacement beater.

Structural stability

6. In order to check that the equipment is securely fastened to the ground, uncover the foundations once a year.
