

Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground.....

Date of installation

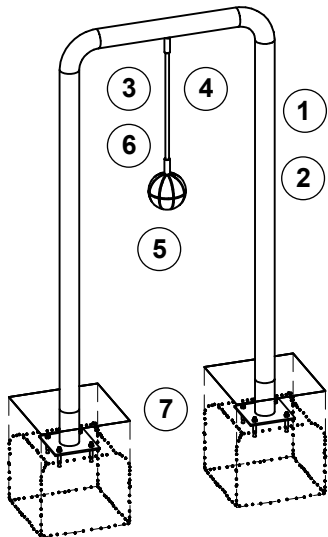

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on

- the location
- the usage
- the frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds".

Swinging Ball
Order No. 11.02600

Stainless steel

1. Clean with stainless steel spray using a clean cloth.

Metal/fitings

2. Sharp edges caused by wear and tear file/ grind blunt edges
3. Check joints for ease of movement and wear, re-grease if necessary
4. Check chain and connection to chain; check wear on contact surfaces between first and second chain link

Pendulum

5. Check for proper function.
6. Check the rope for tear, if the steel reinforcement is damaged it is imperative it be replaced.

Structural stability

7. In order to check the fixation to the ground or corrosion, uncover the foundation once a year.

Special notes, e.g. for repairs
