

Instructions for wear checks of play equipment

The equipment must be checked for correct operation and safety, especially the points listed below:

Proof of maintenance

Playground.....

Date of installation

Checks depend on the type of equipment. Any equipment with moving parts must be checked at least twice a year, static equipment at least once a year.

Intervals for maintenance work and checks generally depend on

- the location
- the usage
- the frequency of use
- possible vandalism

For more details see also "General instructions for maintenance of playgrounds".

Mountain Guard Order No. 8.79000

Wooden parts

1. Check for rot and, if necessary, smooth out splinters and round off sharp edges of cracks.
2. Check that all bolts and screws are tight and retighten if necessary.

Climbing ladders and net tunnel

3. Check ropes for wear and tear, if the steel reinforcement is damaged, it is imperative they be replaced.
4. Check connection to wood, if necessary retighten screws/bolts.

Metal parts and fittings

5. File down any sharp edges that may arise from wear and tear.
6. Check chains for wear and tear.

Plastic parts

7. Replace parts that are worn excessively or damaged.

Structural stability

8. Uncover the foundation once a year in order to check for rot or the steel feet for corrosion.

Special notes, e.g. for repairs

Repair not carried out, it is still possible to play on equipment	<input type="checkbox"/>	
Repair not carried out, equipment is taken out of action	<input type="checkbox"/>	
All work carried out, everything is in order	<input type="checkbox"/>	

Maintenance carried out by:
