

CHRISTIE

CC2 Cooktop Electric

Christie cooktops are self-contained outdoor cooking appliances. They can be ordered with our pre-fabricated Modular or A Series cabinets, or installed in any built-in structure that meets relevant safety standards.

Our latest generation cooktop won an Australian Good Design Award. It is the current evolution in our ongoing refinement of the ultimate energy-efficient, long-lasting barbecue.

KEY FEATURES:

- Mono-pressed, 90% recycled stainless-steel grill plate with high contact element for exceptional heat dispersal and ease of cleaning
- 3.5kW High Efficiency design, engineered for repeat and continuous high volume cooking
- Unique sterilisation cycle for ultimate cooking safety and hygiene
- Highly sensitive micro-processor and control program that accurately maintains the optimum cooking temperature while conserving energy
- Intelligent self-diagnostics with fault codes and flashing warnings
- Aluminium heat shield reflects 80% of radiant energy from the underside back to the hotplate
- Fast, low cost plug-in connection for ease of installation and servicing
- Cooktops are shipped within five days of order confirmation and spare parts within one working day
- Two year Product Warranty backed by our qualified in-house support team
